

BEWARE OF ALIENS

As an angler you are the eyes and ears of the waters. You enjoy the peace & quiet of nature. The time alone or the company of friends. And of course: the pure joy of catching a fish! Did you know that plants, fish and diseases are often traveling with us from one waterway to another? They're sticking to our clothes and fishing equipment. Some of these are **invasive alien species** that'll seriously damage and block waterways, kill fish and spoil the joy of angling. And if the waterways aren't healthy, neither are we.

You, as an angler, can help protect our precious waterlife: check, clean and dry your equipment, your nets and boots. Nature thanks you!

Together for healthy nature
